Ariyibi Azeez

Full Stack Web Developer and Trainer

Lagos 100001

 supremozee14@gmail.com | +234 8108690132 | +2349161425018

Summary

A passionate and creative full stack web developer with over three years of experience in building modern and responsive web applications using TypeScript, Next.js, React, Node.js, Express, MongoDB and other industry-standard technologies. A skilled and enthusiastic web development trainer who has conducted advanced and highly rated web development training for individuals and groups. A motivated and ambitious learner who is always eager to explore new technologies and challenges. A team player who can collaborate effectively with other developers, designers and stakeholders.

Work Experience

Votify - Personal Project

Full Stack Web Developer | January 2021 - Present

• Developed and currently managing a real-time voting application that enables users to create and manage an election.

• Built the project completely from scratch using TypeScript, Next.js, Tailwind CSS, Sass, Node.js, Express, MongoDB, Socket.io and other technologies.

• Implemented modern and advanced web features such as cross-browser compatibility, image standards and optimization, web fonts, responsive design, email content and more.

• Integrated JWT, Mongo Atlas, bCrypt frameworks for authentication and persistence.

• Utilized Redux for state management and protected cookies for security.

• Applied advanced querying techniques to perform CRUD operations on the database.

• Leveraged Next.js capabilities to optimize performance, such as server-side rendering, static site generation, image optimization and code splitting.

• Ensured code quality, maintainability and scalability by using TypeScript, ESLint, Prettier and other tools.

• Deployed the application to Vercel and Heroku platforms.

Gasalt - Client Project

Frontend Web Developer | Link: [Insert Link Here] //not yet live

• Developed an engaging landing page for Gasalt, a client project, using TypeScript, Next.js, Tailwind CSS and Sass.

• Streamlined user interactions by implementing efficient navigation features through Next.js App Router.

• Utilized TypeScript to enhance the codebase's robustness and maintainability, ensuring a smooth development process.

• Employed Tailwind CSS and Sass to create a visually appealing and responsive design, enhancing the overall user experience.

• Leveraged Next.js capabilities to optimize performance, resulting in faster page load times and improved site responsiveness.

• Successfully addressed potential bottlenecks through strategic code optimizations, contributing to a highly efficient application.

• The project has received positive user feedback for its intuitive design and seamless navigation, establishing a positive brand image for Gasalt.

E-commerce Project

Frontend Web Developer | In Progress

• Leading the development of a modern and responsive e-commerce frontend using TypeScript, Next.js and various industry-standard technologies.

• Implemented key features and user interfaces for the project frontend application, providing an intuitive and seamless shopping experience for users.

• Collaborated closely with the design and backend teams to ensure the integration of front-end components with backend services, optimizing overall application performance.

• Utilized TypeScript to enhance code quality, maintainability and scalability, ensuring a robust and maintainable codebase.

• Applied responsive design principles to create a consistent user experience across various devices, improving accessibility and user engagement.

• Integrated and utilized important methods and best practices to enhance the application's performance, security and maintainability.

• Actively participated in code reviews, providing constructive feedback and ensuring coding standards and best practices are followed.

Web Development Trainer

Freelance Trainer | Lagos | January 2020 - Present

- Conducting advanced and highly rated web development training for individuals and groups.

- Covering topics including HTML, CSS, JavaScript, TypeScript, Tailwind CSS, Sass and React JS.

- Providing hands-on projects to enhance practical skills.

- Utilizing interactive coding sessions, real-world projects and collaborative learning environments.
